

For Immediate Release

Voluntary Recall For Mastercraft 2-in-1 Nailer

Toronto, Ontario (February 23, 2017) – The Mastercraft 2-in-1 Nailer, an exclusive product to Canadian Tire, is being voluntarily recalled due to non-compliance with Canadian Tire Safety Standards.

The casting that attaches the exhaust port to the hand tool may break causing the exhaust port to detach. This recall only affects units manufactured before March 2011. Impacted product can be identified by the manufacturing date code located on the body of the tool.

There have been two reported cases resulting in minor injuries associated with product use. Health Canada has been notified and a notice will also appear on their website.

The following product is being recalled:

Product Description	SKU Number
Mastercraft 2-in-1 Nailer	058-8548

Customers who have purchased the recalled product can return it to any Canadian Tire store for a refund.
